

## Real-Time Data Exchange

Larger agencies have a need to ship/receive data between departments/divisions in addition to sending data to multiple outside regulatory agencies.

The healthcare industry has been slow to adopt structured messaging as its preferred mode of data exchange. For this reason, Infinity/Civerex offers **CiverPsych** users two data exchange options:

- *Structured (EDI) data exchange* can be accomplished with **CiverExchange™** and **CiverSubmit™** for industry standard and custom EDI data formats.
- For *unstructured data exchange*, **CiverExchange** can be used in conjunction with custom interfaces (e.g. General Ledger, Payroll, HR systems).

## Contact Information

### Infinity/Civerex LLC

430 Wynn Drive,  
Huntsville, AL, 350805  
Tel: 1-800-529-5355  
Fax: (514) 636-8651

Email: [dmccready@civerex.com](mailto:dmccready@civerex.com)  
Infinity Website: [www.infitech.com](http://www.infitech.com)  
Civerex Website: [www.civerex.com](http://www.civerex.com)

## Flexible Delivery Options

**CiverPsych** is available as a web-based application running under Internet Explorer, as a traditional client server application, or as a hybrid application that combines the two. It will run on agency-based servers, or the entire hardware/software configuration can be outsourced to an ASP vendor site.

### New Upcoming Product - CiverPsych EMS™

Infinity/Civerex will introduce in January 2007, a multi-entity version of **CiverPsych** called **CiverPsych EMS** (Enterprise Management System).

You will now be able to separately build, browse and maintain multiple entity record sets (i.e. Patients, Relatives, Foster Children, Foster Parents, Providers, Payors, Benefit Plans, Residences and Curators).

**CiverPsych EMS** licensing will include a site license for **CiverManage** to establish relationships between entity records.

## Comprehensive Services

- Infinity/Civerex offers a complete range of professional services to assist you with Strategic Planning, Project Management, Infrastructure Configuration or ASP Outsourcing for your **CiverPsych** software system.
- When it comes to IT solutions, our expertise spans private sector, public sector, and multiple industry areas.
- Our on-line real-time remote Technical Support service provides you with a fast response to your needs.
- Our experienced Customer Service team can provide Implementation Services (e.g. Set-Up, Data Conversion, Form and Report Design), Training, System Startup, Service & Maintenance and Facilities Management.

## Did You Know That?

- The Infinity/Civerex behavioral healthcare suite of products includes:

**CiverPsych** (case management)  
**CiverOrders** (workflow management)  
**CiverExchange** (data interchange)  
**CiverSubmit** (EDI)

These Products can be installed "out-of-the-box" and configured on-site or remotely to respond to the specific needs of any agency.

- Civerex Systems was a pioneer in Electronic Health Records (EHR) and web-based solutions, dating back to 1995.
- **CiverPsych** provides demonstrable benefits that allow you to justify software acquisition on the basis of net savings as opposed to cost outlays.
